I am driven, passionate and have an independent and tenacious mindset.

I like to build great things: brands that deeply resonate, apps & websites that are a delight to use, motion that brings a smile and code that is efficient.

I have freelanced for a large range of design and advertising agencies around Soho, Shoreditch and Clerkenwell and have created, managed and run a number of my own businesses along the way.

I am naturally entrepreneurial and multi-skilled, a self-starter with an analytical penchant. I work well individually or as part of a team and can call on a large network of talented friends to complete project goals.

I like to be reliable and laugh when possible.
